

SAMPLE OUTPUT · THE ELDERSHIP'S STAGE-2 VIEW

The Body's Gifts Map

Grace Community Church (demonstration)

Grace Community Church is a fictional demonstration church seeded into the Sonrise Revival platform. Every figure in this document is real platform data from that seeded church — walk it yourself with a free account at sonriserevival.com/examples.

280 members have consented to share their confirmed gifts with the eldership; 168 have completed the full journey to a confirmed top three. The map below counts every appearance of a gift in a Saint's confirmed top three — the raw material of Stage 2 of the Annual Plan. It is an aggregate picture only: the eldership sees confirmed gifts and callings by consent, never raw answers or journals.

What the eldership does with this

The map feeds the Stage-2 registers of the Annual Plan: gifts present but not deployed become the gap register; strong clusters (here, the serving gifts — Helps, Mercy, Hospitality) suggest where new work can be sustained; thin gifts (here, the equipping and sending gifts) become matters for prayer and for the Five-Fold Apprenticeship this church chose to fund. The 112 consented members without a confirmed top three are the other action item: each is a Saint part-way through the journey, and their elder can see who to encourage.
